

GREEN KLEAN® GONE

Fast and Effective Odor Eliminator

Green Klean® GONE is the most effective, fast and inexpensive way to eliminate foul odor.

No Ozone.

1 unit treats a 250 square foot area. Each unit contains a 25 gram pouch, activator sponge, a disposable clam shell & full instructions.

GK-ORGONE = 12 units/case
GK-ORGONE-2P = 2 units/case

- Simple to use. Turn off the HVAC, seal the room vents, saturate the sponge with water, open the pouch, and insert the white brick into slit in the sponge. Return to the clam shell and close the lid. The ClO₂ vapor is released into the area attacking odors at their source.
- Once a sealed area is treated, it can be reoccupied quickly by turning on the HVAC or allowing fresh air into the space.
- Odors are removed permanently.
