

Versa Scrub Green®

Environmentally Friendly. Versatile.

100% Recyclable.

**Versa Scrub
Green® Holder**

Part # 3210

**Versa Scrub
Green® Brush**

Part # 3220

**Versa Scrub Green®
Holder also works with a
scrub pad and/or a small
microfiber mopping pad**

Malish Exclusive

Environmentally Friendly

Brush and holder are both totally recyclable. Bristles are fusion welded and there are no metal parts in the holder.

Versatile

- 3 Tools in One – Holder houses the scrub brush, and is equipped with “teeth” to hold a scrub pad and/or a small microfiber mopping pad.
- Brush snaps in and out for easy exchange.
- Swivel action makes for a perfect tool for those “hard-to-reach” places like curvatures in shower stalls, behind toilets, equipment and machinery. Great for getting in the grout lines.
- Ergonomic. Accepts a standard Acme threaded handle to eliminate extra bending and getting down on the floor to scrub.
- Bristles are chemical resistant polypropylene.
- Can be cleaned and sanitized for reuse.
- **When brush is worn, throw it in the recycle bin!**
